

Study program: Modern Business Management; Module: Organizational Security Management			
Subject name: Legal Aspects of Security			
Lecturer: Nina Maksimović Sekulić, Ph.D. (nina.maksimovic@mbs.edu.rs)			
Subject status: obligatory			
ECTS: 7			
Pre-requisites: -			
Subject objectives The concept of security, although mentioned stays much undefined. The main core of the subject is the analysis of the legal approach to security. The meaning of legal security order consists of norming social relations, society subjects that will conduct the least resistance to accomplish general state interests. Speaking of the resistance to security development, the state will use force measures to provide its vital interests. Thus, the main goal of the subject is mainly to introduce students to the constitutional-legal stuff, political institutions that relate to the highest state government, its structure, organization, functioning, understanding whether the main comparative-legal and positive-legal institutions. The relationship between the legal defense norm and constitutional legal-management norms that regulate this area is studied.			
Subject outcomes The students will be introduced to the nature of security law and the main principles of legal development doctrine, they will acquire legal terminology in the area of security, the ways of administrative organizations functioning in the area of security. The students will also develop the capacity to understand the difference between the inner and international legal norms of this legal branch and will be able to analyze the other factors that impact the legal security aspect.
